Mr. Ron W. Daniels  
Division of Oil, Gas & mining  
1588 West North Temple  
Salt Lake City, Utah - 84116

Dear Mr. Daniels:

Please consider this letter a follow-up to our meeting of February 17, at which time we informed you of our intentions to resume mining operations at the Hillside-Gizmo-Maybe Mine, Fry Canyon area, San Juan County.

Rehabilitation and clean-up work is in progress but actual mining operations have not yet begun. However, as we discussed with you, we feel we are exempt from the mining regulations because we will disturb less than two acres of ground and will move less than 500 tons of surface material.

Processing of forms MR-1 and MR-2 have been undertaken and shall be in your office in the near future.

Thank you for your help and consideration.

Yours truly,

*Don O. Snyder*
